INAUGURAL EDITION

We are excited to launch IIMAEF's newsletter with this inaugural edition which covers the genesis and work we have done over the past two years.

This newsletter is an effort to spread the word among our alumni about the diverse initiatives shaped by the efforts of the IIMA Endowment Fund at the Institute; seek their feedback, and invite them to join us in this endeavor.

GENESIS OF IIMA ENDOWMENT FUND

In 2020, a group of like-minded alumni from IIMA came together to start the IIMA Endowment Fund (IIMAEF), a first-of-its-kind initiative for a B-school in India. Endowments are very popular globally, and most of the leading business schools in the world have billions of dollars in their endowments powered by their alumni. IIMAEF has been set up to recognize the contributions made by our alumni, and to help create a formal, well-governed, and professionally run structure through which they can give back to IIMA.

Since the integration with the erstwhile Development Office in June 2021, IIMAEF is now IIMA's unified fundraising and philanthropic arm for all contributions made to the Institute (alumni, corporate, CSR, multilateral agencies, etc). The team takes care of functions such as raising funds, facilitating deployment, managing donor relations, communications & engagement, and supporting the Institute in donor reporting & documentation for both general corpus and specific purpose donations to IIMA.

The activities of the IIMA Endowment Fund are carried out by the IIM Ahmedabad Endowment Management Foundation, a company incorporated under Section 8 of the Companies Act, 2013. The Board of the Foundation comprises alumni contributors as well as IIMA leadership, i.e., the Director and Dean – Alumni and External Relations (in ex-officio capacity). From 10 founding alumni, IIMAEF has expanded to currently 18 alumni Founders, Co-Founders and Co-Founding Batch spanning from batches as early as the 1960s to as recent as the 2000s. Sandeep Singhal (PGP 1999) is the Chairman of the Board of the Foundation and Chhavi Moodgal (PGP 2004) is the CEO.

The IIMA Endowment Fund offers alumni the opportunity to make a meaningful impact on the future of their alma mater and leave a lasting legacy at IIMA while providing tax benefits** to donors across various geographies. Your support will go a long way in funding projects, including growth & expansion, research, and faculty & student initiatives at IIMA.

**The contributions by Indian taxpayers to IIMA – both individual and organizations having Indian PAN are 100% tax deductible under 80G provisions of Income tax Act, 1961. Effective 1st April, 2023, 80G benefit towards tax deduction only remains for those who opt for the old tax regime. The new tax regime does not accord 80G tax deduction, even though IIMA is notified under 80G of Income tax Act, 1961. Filing returns for FY24 onwards in old regime vs new regime is currently at the discretion of the donors. Taxation details should hence be run past respective tax advisors in your local jurisdiction as needed.

Prof Bharat Bhasker

Director, IIMA

At IIMA, our focus is on promoting excellence by encouraging high-quality research; fostering distinctive and impactful teaching; and enabling meaningful contribution to knowledge-creation in a variety of disciplines. In addition, we also want to

ensure that our students are motivated through experienced faculty, collaborative learning environment, diverse activities and professional development opportunities.

It takes a confluence of resources, skills and networks to employ the framework described above. IIMA is in a unique position to bring these together. Our Institute has produced over 40,000 alumni leaders across different walks of life and we have collective experience of six decades in management education space. With these assets, IIMA can continue to be the flagbearer for driving research, teaching and public policy in India and the world.

The IIMA Endowment Fund is a conduit to bring together our stakeholders and supporters through meaningful initiatives that not only will impact the Institute's ecosystem, but also create a far reaching impact over the long-term. IIMA continues to be recognized as a premier global management school, and with initiatives facilitated by the IIMA Endowment Fund, we are hopeful of achieving our vision of being a top global Institute. I am delighted to have joined the Board of the IIMA Endowment Fund and I thank all our donors and well-wishers including individuals, batches and corporates. I am pleased to join you all in shaping the future of IIMA.

Mr Sandeep Singhal

Chairman of the Board, IIM Ahmedabad Endowment Management Foundation

Endowments ensure financial health and help shape the growth and development of an academic institute over the long-term. Today, the top 50 institutions in the world have massive endowments of over \$1 billion; the topmost global institute has amassed an endowment of over \$75 billion. Similar to global endowments, the idea of setting up the IIMA Endowment Fund dawned upon us just before COVID hit. Supported by the Institute's leadership, particularly Prof Errol D'Souza and Prof Basant, we set out to plant the seed of the endowment. We believe that this seed will become a giant tree in the coming years and will nourish and strengthen our beloved alma mater.

Our alumni are a source of pride and strength for the Institute and have contributed in many ways to support IIMA's priorities historically. Over time, the IIMA Endowment Fund is envisaged to become a large, self-replenishing corpus that can emerge as an important source of funds to support IIMA's key strategic initiatives and innovative projects. This kind of a focussed funding support has been missing for most Indian educational institutions and we are happy to create one at IIMA.

As of date, IIMA has raised philanthropic commitments of ~ INR 450 crores of which ~ INR 200 crores has come in the last two years. Over the last one and half years, a total of eight new Founders, Co-Founders and Co-Founding Batch have come forward in addition to the original 10 Founders and Co-Founders. Several batches have taken the lead in making fresh contributions, notable amongst them are the Batch of PGP 1990, PGP 1997 and PGP 2001. Many other batches have contributed in the past. We all owe a debt of gratitude to this wonderful Institute and the contribution of IIMA in our success is enormous. I believe that in the coming years, all of you will join us in taking the IIMA Endowment Fund to new heights.

Ms Chhavi Moodgal

CEO, IIMA Endowment Fund

In December and January 2022, I had the pleasure of engaging with over 700 alumni visiting the 11 Reunions at the campus. The Giving Sessions with the Reunion batches helped spread the word about the work we do at the IIMA Endowment Fund and the need for a periodic update - hence, this newsletter. It was a valuable exchange of thoughts and ideas to collaboratively help shape the future of IIMA. In addition to donor engagement, knowledge-building and international benchmarking activities are also carried out periodically through interfaces with Indian as well as foreign educational institutions.

Being an alumna from the PGP 2004 batch, I am grateful and excited at the wide spectrum of possibilities and avenues that my role as the founding CEO of IIMA Endowment Fund offers. IIMA Endowment Fund is the unified fundraising and philanthropic arm of IIMA. I took on this role in January 2021 and since then have set up the team, processes, frameworks, products of the Endowment and also grown the contributions substantially thanks to the support of IIMA, Institute Board and faculty; and the invaluable insights from the Endowment Board. We started operating from the IIMA campus in July 2021, post the second wave of Covid-19; a more active outreach and engagement with the alumni and corporate stakeholders started post December 2021 as globally things settled.

Over the past two years, through the IIMA Endowment Fund, we have been engaging with our alumni, corporate partners and other stakeholders as we support IIMA in achieving the next frontier of global eminence in thought leadership, education and research. At the IIMA Endowment Fund, we work with our donors and IIMA in conceptualizing, developing and executing meaningful and impactful initiatives & projects across the domains of research, teaching, sustainability, inclusion, diversity, skilling, entrepreneurship amongst others.

Going forward, IIMAEF will continue to identify fundraising opportunities across verticals - individuals, batches, corporates, multilateral agencies; geographies and asset classes so that donations in kind are also contributed besides cash commitments. The team will also focus on assisting IIMA with deployment for projects and providing for long-term strategic initiatives which further enhance the mandate and charter of IIMA globally.

I thank you for sparing your time to read through this newsletter. I am delighted at the possibilities that we could co-create and I look forward to engaging with all of you in contributing to the endeavour of shaping the future of IIMA.
