

INDIAN INSTITUTE OF MANAGEMENT AHMEDABAD

Requires

Research Associate – Machine Learning and Optimization

A research associate position is available from March 2019 in the IS area at IIM Ahmedabad. Responsibilities of the research associate include developing machine learning and optimization models on large scale datasets for service systems; the research should culminate in journal publications.

Applicants should have an undergraduate/graduate degree in engineering/operations research/computer science/ econometrics/ management science/mathematics, or other-related fields (from Tier-I institutions only) before the appointment begins. Further, strong written and oral communication skills in English are a must. Moreover, the candidate must be comfortable in programming in an OO programming/scripting languages such as Java, C++ or Python. Affinity with Big Data Science, Operations Management or Econometrics is a plus.

The selected candidate will be offered a monthly stipend of INR 25,000-INR 35,000 based on prior qualifications and experience. The contract is initially for one year with a potential for extending to another year. The selected candidate will be working from IIM Ahmedabad campus. However, the candidate is expected to manage their own accommodation, outside the IIMA campus which is centrally located within the city of Ahmedabad.

Applications will be screened until the position is filled.

Interested candidates are advised to **APPLY ONLINE ONLY**
