

Introduction:

IIMA seeks applications for the positions of Research Assistant (RA) under a project broadly related to transportation research and survey design.

Tasks/Details of Project:

Primary tasks for the RA would include processing of the questionnaires, preparation of codebook, data entry and preliminary analysis.

Duration of the Project:

The position is open for two months only. Possible extensions are subject to proven performance on the project as well as further alignment of project tasks with the candidate's skill-sets.

Eligibility Criteria:

Candidates with a minimum of 65% in their graduation and/or post-graduation are eligible. Further, applicants having prior experience with handling data cleaning, processing of questionnaires, data entry are eligible to apply.

Required skill-sets include data processing ability and preferably, conducting analysis using STATA and/or R.

Candidates with background in Transportation Research will be given a preference.

Stipend:

Payment is subject to institute norms and can range between INR 20000-25000 p.m. The stipend does not include support for on-campus accommodation. However, RAs looking for accommodation can potentially find a reasonable option close to the campus.

Other Supporting Facilities:

During the tenure, the RA will get access to library and Wi-Fi on campus. The library, food joints and other areas are wheel-chair accessible.
