

INDIAN INSTITUTE OF MANAGEMENT AHMEDABAD

Requires

**Gender and Age Classification of Photos from Social Media
Research Assistant under Prof Pritha Dev**

Project(s) Description: The project involves analyzing social media images. The project will involve collecting images shared by select social media handles and then analysing the images. The project will aim to use the AI/ML techniques for analysing images and then understanding the implications for the business world.

Qualifications: Candidates are expected to have a Master's in Economics, Data Science or Computer Science and related disciplines. Ideal candidate will use this experience to hone their skill towards the aim of pursuing higher studies. Candidates should have demonstrated interest in data science and gender in management.

Eligibility: Candidates must have good demonstrated knowledge of AI/ML techniques and will ideally have prior experience of data cleaning and analysis. Understanding of statistical techniques and good language skills will be given preference.

Project Tenure: The initial appointment is for six months, with a possibility of extension up to one year, based on performance appraisal.

Selection Process: Selected applicants from the pool would be requested to submit a preliminary analysis of a curated data-set, along with the accompanying code (including estimation routines) to the Principal Investigator.

Location: The selected candidate(s) would be working from Ahmedabad. IIMA provides access to library and computer center for all Research Assistants. The campus is centrally located within the city of Ahmedabad with proximity to several residential and commercial hubs. Candidates are expected to look for accommodation by themselves, outside the campus premises.

Compensation: Compensation will be attractive and commensurate with the qualification and experience.
