A Legacy That Speaks for Itself

“

For over six decades, IIM Ahmedabad has held to a simple conviction: that leadership is not taught through theory alone, but forged through rigorous inquiry, real consequence, and the discomfort of being questioned by people as capable as you are. That conviction has shaped generations of leaders across industries and geographies, long before it required a campus to prove it.

This **Executive MBA** is not an adaptation of that legacy. It is that legacy, offered without compromise, to a global cohort of professionals who have already built something real — and who are ready to be sharpened, not introduced.

We did not design this programme around a single market. We designed it around a particular kind of leader: one who thinks beyond function, beyond geography, and beyond the ceiling their current role has quietly placed on them. What you will find here is not comfort, but calibre — the kind that travels with you, wherever your ambition eventually takes you.

The IIMA EMBA Difference

Not every EMBA is built on the same foundation. IIM Ahmedabad's legacy is six decades deep — same faculty, same case-method rigour that shaped how management is taught globally. **That standing isn't self-declared: 23rd globally in the Financial Times Executive Education Open Rankings 2026, 1st in Asia, 1st in India.**

Learn in an Environment Built for Leaders and Executives

You learn with the rigour, faculty and peer exchange that have shaped IIMA's executive education over decades. IIMA is ranked #1 in Asia, #1 in India and #23 globally in the Financial Times Executive Education Open Rankings 2026 — and that experience now comes together in its first Executive MBA.

Keep Learning Without Stepping Away from Your Career

Weekend classes let you continue in your role while you study. That means you stay close to the real decisions and challenges that give the learning context — and can bring new thinking back to work as you go.

Cross functional by Design

The more responsibility you take on, the more decisions cut across strategy, finance, technology, markets and people — with AI applications built into the very core of how you learn to lead. Through IIMA's case method, you work through real business situations, hear different perspectives and learn to see the whole problem — not just one part of it.

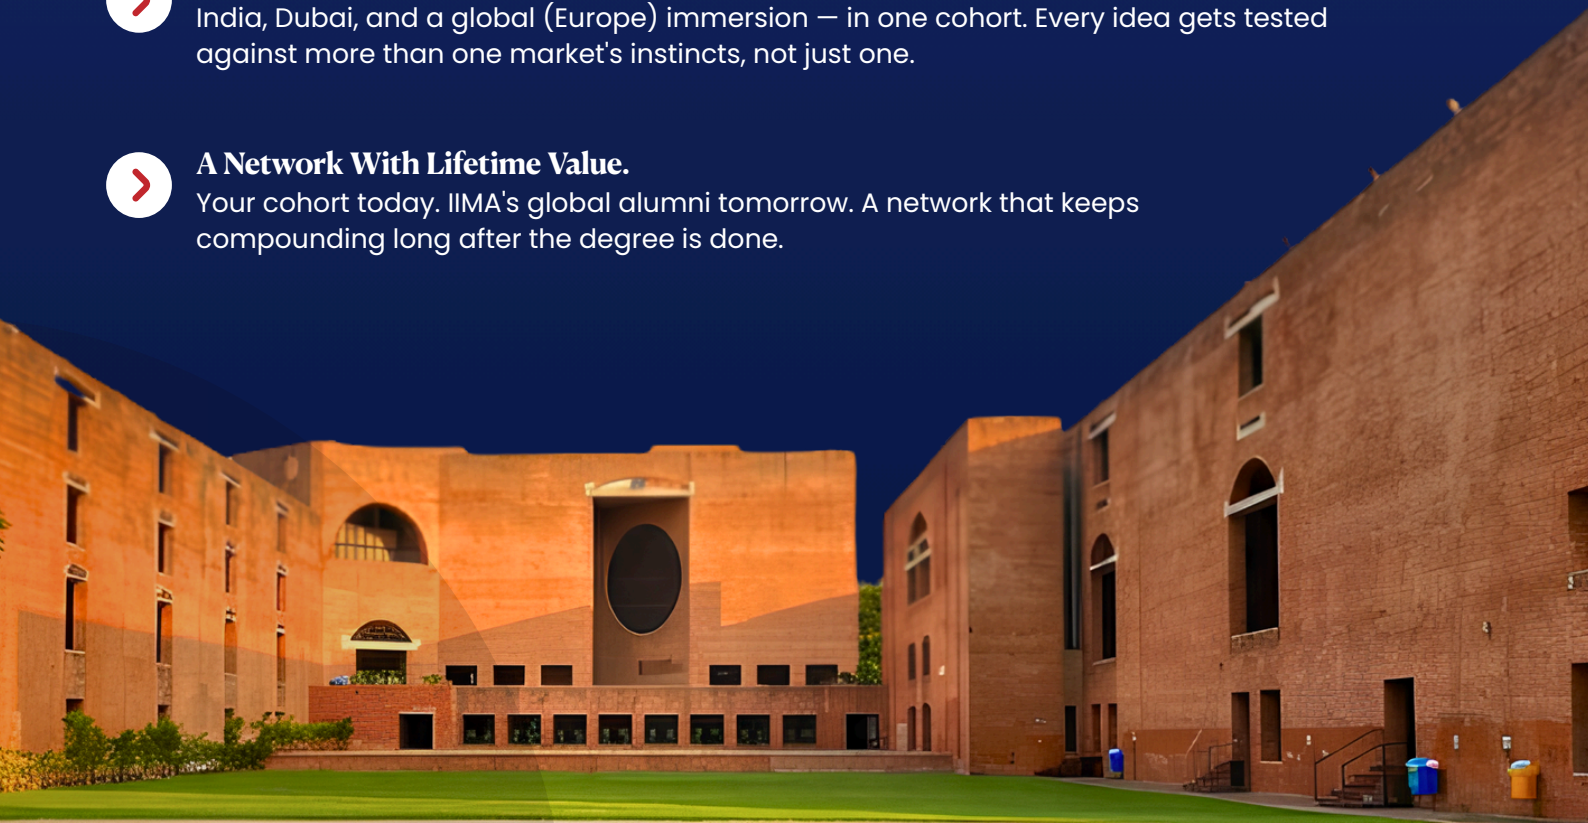

A Truly Global Classroom.

India, Dubai, and a global (Europe) immersion — in one cohort. Every idea gets tested against more than one market's instincts, not just one.

A Network With Lifetime Value.

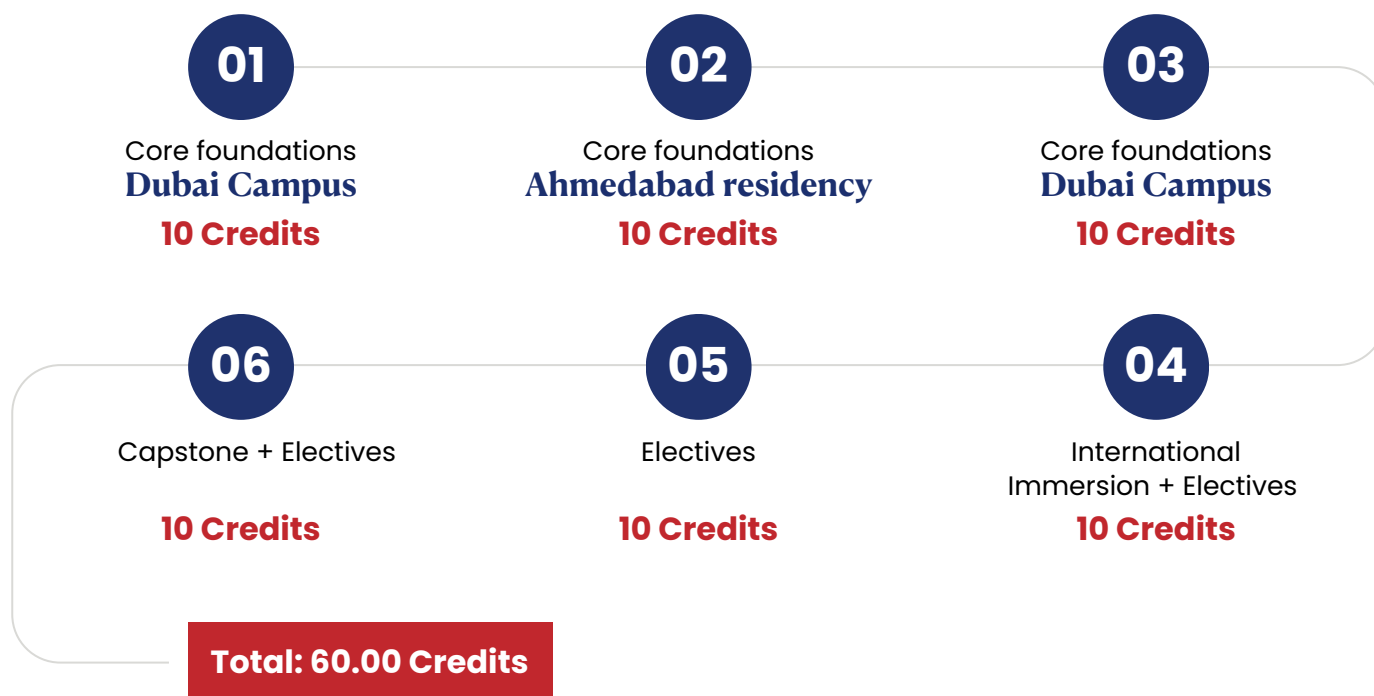

Your cohort today. IIMA's global alumni tomorrow. A network that keeps compounding long after the degree is done.

Your Learning Journey

Six Terms. Three Countries. One Global Immersion.

The programme moves in six terms across two years — weekend classes throughout, with immersive residencies at IIMA's Dubai and Ahmedabad campuses, and a global immersion at a partner institution abroad. Every term carries its own academic weight, building from core management discipline toward applied, enterprise-level judgement.

Sharpen Your Edge (Electives)

Terms IV through VI are yours to shape. Choose from electives across:

 AI & Digital	 Strategy & Transformation	 Leadership & Resilience
 Innovation & Growth	 Global Markets & Sustainability	 Applied Research
 Entrepreneurship		

For Leaders Who Challenge the Status Quo

We seek accomplished professionals ready to move from proven expertise to broader leadership. If you are prepared to challenge your thinking, embrace diverse perspectives and take on a greater mandate, this is what it takes to earn a place in this select cohort:

Experience

6+ years of professional experience.

3+ years in a managerial or leadership role.

Ambition

Ready for a broader mandate.

Aspiring to take on greater strategic and enterprise-level responsibility.

Curiosity

Seeking cross-functional perspective.

Connect strategy, finance, technology, markets and people more effectively.

Global Outlook

Ready to broaden your worldview.

Seeking to lead across markets, cultures and diverse economic environments.

Commitment

Continuous learning, without stepping away.

Balance an intensive academic schedule with an active career — engaging fully with pedagogy, faculty, and peers each weekend, without pausing the role you've already built.

Your next chapter **starts here!**

You've built the experience. Now decide how far you're ready to take it.
The next chapter is yours to define!
