PGP-FABM Summer Placements 2026-27
IIM Ahmedabad
3rd November 2026

The Indian Institute of Management Ahmedabad (IIMA) has successfully completed the summer placement process for the 2026-28 batch of the Post-Graduate Programme in Food & Agribusiness Management (PGP-FABM). The process, which concluded on 27th October 2026, took place in a hybrid format, offering flexibility to everyone involved. All 44 students of the batch received offers for internships and they will be interning with their host companies between April and June 2027. This successful placement reflects the high calibre of IIMA students, the academic experience at the institute, as well as the strength of the entire placement process, to meet both students' and recruiters' needs.

Over 30 companies, encompassing a wide array of sectors, such as Management Consulting, Agri-Inputs, FMCG, Quick Commerce, Climate Tech, Healthcare, and many more, have participated in the process. Bayer Crop Science emerged as the top recruiter this year. Other regular recruiters included Godrej Agrovet, Nestle, PepsiCo, United Breweries, Sundrop Brands, Accenture, Ernst & Young (EY), AgVaya, Sahyadri Farms, Varaha, Amul, Everest Instruments, PCI, and Laila Wellness. Many new/ returning recruiters also showed a keen interest in the batch, with participation from HUL, HSBC, Zydex Group, Grow Indigo, Mahyco, First Club Technology, Hetha Organics, Khetika, and BloomchemAg.

Vinoy K, Dekalb Brand Manager, IBSL at Bayer Crop Science, said, "We observed that the candidates have good clarity of thought, articulation skills, and were technically sound. Some of them have a good entrepreneurial mindset, which can be translated to good business ventures in future. The overall interview process was efficiently setup by the placement team and handled professionally"

Prof. Viswanath Pingali, Chairperson of Placements, stated, "It is a pleasure to see PGP-FABM do so well during the summer internship process. The programme is rated as World number 1 in Food and Agribusiness, and it is good to see recruiters reposing faith in the programme".

Sachidananda Hota, Recruitment Secretary of the PGP-FABM Placement Committee, said, "The Summer Internship Placement process this year has reflected the growing relevance of PGP-FABM talent across the food and agribusiness ecosystem. Our objective has been to enable meaningful alignment between student aspirations and the evolving needs of the agribusiness ecosystem.

The diversity of recruiters and roles offered this year reflects the expanding scope of the agribusiness sector and the increasing recognition of the value that FABM students bring through their combination of sectoral understanding and managerial capabilities. As a Placement Committee, we have continued to strengthen our engagement with existing recruiters while building relationships with new organisations. We believe that successful summer internships go beyond matching candidates with opportunities; they lay the foundation for meaningful industry exposure, mutual value creation, and long-term relationships between organisations and the institute."

Cohort-wise details on the number of students placed:

Cohorts	No of Students
FMCG	15 (34%)
Agri Input & Agri-tech	13 (30%)
Consulting	6 (14%)
Quick Commerce	3 (7%)
Climate Tech	2 (4%)
